

A Small Workshop Batch

Subscriber Special – Small Batch Release **The Woodland Wombat** Hand-carved in Tasmania

From time to time we release a **very small workshop** batch to our subscribers.

This week it's the much-loved **Woodland Wombat**.

Each one is carved by hand in our Tasmanian workshop, shaped slowly from beautiful native timber and finished to highlight the natural grain of the wood.

For this short release, subscribers can receive one for

\$25

A simple, character-filled piece from our **Bushland animal collection** — perfect for a shelf, desk, or as a thoughtful gift.

Small batch only.

When they're gone, they're gone.

Subscribe to access the offer and reserve your wombat.
